OLSS Advises on Cross-Border Sale of New Era Converting Machinery

OLSS recently represented New Era Converting Machinery Inc. in its acquisition by IPCO AB, a global industrial processing company and subsidiary of Sweden-based FAM AB.

The acquisition helps IPCO offer a broader range of turnkey precision manufacturing solutions, while giving New Era a platform for international growth and long-term investment.

OLSS worked closely with New Era's leadership throughout the deal, advising on investment banker engagement, tax and transaction structuring, diligence, and deal terms. Our transactional team was led by Adam Haberfield and Jack Vrablik, with Eugenia Yudanin and Kevin Fenstermaker providing tax and real estate counseling, respectively.

Congratulations to the teams at New Era and IPCO!
