Veronica Hurless Installed as President of New Jersey Association of Legal Administrators

OLSS shareholders attended Partners' Night at the New Jersey Association of Legal Administrators on April 8, featuring a presentation by Spencer X. Smith entitled The Transformative Power of AI in the Legal Industry.

While the presentation was timely and illuminating, the highlight of the evening was seeing Veronica Hurless, OLSS's wonderful, long-serving executive director, installed as President of the NJALA. This honor reflects her deep experience in the legal industry and her unwavering commitment to operational excellence, leadership development, and community-building across the legal profession.

Well deserved, Veronica!
