## Laura Wilensky Shares Insight at NJ Summer Estate Planning Institute

The NJ Summer Estate Planning Institute kicked off last week, with OLSS shareholder Laura Wilensky opening the program with a presentation on "Ethics Issues Lawyers Confront in Estate Planning and Administration Matters."

Laura's presentation explored the practical ethical challenges lawyers often encounter when advising clients on sensitive family matters, fiduciary responsibilities, and multi-generational planning strategies. As an experienced estate planning attorney, Laura brings deep insight to these conversations, and we're proud to have her sharing her experience with the broader legal community.
